IDOR Education Program

General information

The Illinois Department of Revenue's (IDOR) education program provides instruction in areas where the Department has a direct involvement in the assessment process. Most of these courses focus on using the information in the Department's appraisal publications. Other courses deal with basic mapping for assessors, the complete property tax cycle, math calculations used in the assessing profession, the Department's procedures for developing equalization factors, and conducting a sales ratio study and its use in reassessments.

Anyone may participate in these classes, all of which are **free**.

Most classes are held in Springfield. Class dates and locations can be found on the course listing on our website at tax.illinois.gov.

Most classes are two-and-one-half day courses with the exam held on the morning of the third day.

CIAO designation elective courses

The following IDOR classes may be used to satisfy the elective requirements for obtaining the Certified Illinois Assessing Officer (CIAO) designation:

- I-A — Introduction to Residential Assessment Practices

IDOR Education Program

The Property Tax Education program provides assessing officials the framework and direction necessary to personalize their continuing education. Several changes have been made effective January 1, 2016, to provide assessors with more options when selecting courses. Additional changes have been made effective January 1, 2018.

Course credit

Beginning January 1, 2016, there are no longer hour restrictions on course levels and categories. Assessing officials are allowed to take an approved class for IDOR credit provided that they have not taken the class, or an exception class, within the past 10 years.

We recognize that over time, assessment techniques and methodologies may change. To provide assessing officials the opportunity to stay current with assessment practices, courses may now be repeated for IDOR credit one time every 10 years.

We will allow Continuing Education Instructor credit for courses where the instructor was the sole instructor of the class one time every four-year CIAO cycle period. Instructor credit may be used to meet pre-appointment/pre-election education requirements. However, instructor credit may not be used towards the education stipend. Developer credit will no longer be given.

Changes for 2018

Beginning January 1, 2018, the IDOR class 1-I, Introduction to Property Tax, may now be used as an elective course for achieving CIAO certification.

Note: The CIAO required qualifying courses may not be repeated for credit even if 10 years has passed since the course, or its equivalent, was taken. The elective CIAO courses may be repeated for credit as long as 10 years have passed since the course, or an exception course, was last taken.

Office Qualifications

Township and Multi-township Assessor qualifications

All candidates for township or multi-township assessor must file a certificate of qualifications with their nomination papers under Section 2-45 of the Property Tax Code (35 ILCS 200/2-45). Candidates who are filing nomination papers, participating in a caucus, or participating as a write-in candidate must meet one of the minimum education requirements described below. The requirements for township or multi-township assessors are generally based upon the equalized assessed value (EAV) of the assessment jurisdiction. Individuals who are being appointed to fill a vacancy or individuals contracting to do the work in a jurisdiction must also meet the applicable education requirements.

Important: Note that IDOR pre-appointment and pre-election education requirements are different from CIAO maintenance requirements. Assessors must meet the specific IDOR education requirements even if they possess a CIAO designation in good standing.

Introductory assessment jurisdiction

In an **introductory assessment jurisdiction** with \$10 million or less in non-farm EAV and less than \$1 million in commercial and industrial EAV, Section 2-45(b) of the Property Tax Code (35 ILCS 200/2-45(b)) requires that a candidate must possess **one** of the following qualifications:

If the candidate has not been previously elected to office in an assessment jurisdiction that in 1994 and thereafter had more than \$10 million and less than \$25 million in non-farm EAV and less than \$1 million in commercial and industrial EAV, Section 2-45(d) of the Property Tax Code (35 ILCS 200/2-45(d)) requires that a candidate must possess one of the qualifications for an introductory assessment jurisdiction under Section 2-45(b).

If the candidate was previously elected to office in an assessment jurisdiction that in 1994 and thereafter had more than \$10 million and less than \$25 million in non-farm EAV and less than \$1 million in commercial and industrial EAV, Section 2-45(d) of the Property Tax Code (35 ILCS 200/2-45(d)) requires that a candidate must possess **one** of the designations for a larger assessment jurisdiction under Section 2-45(c).

Office Qualifications

- A Certified Assessment Evaluator (CAE) or Residential Evaluation Specialist (RES) designation from the International Association of Assessing Officers (IAAO).
- A Residential Member (RM) designation, Member Appraisal Institute (MAI) designation, Senior Real Estate Analyst (SREA) designation, Senior Real Property Appraiser (SRPA) designation, or Senior Residential Appraiser (SRA) designation from the Appraisal Institute.

- A Member (ASA) designation from the American Society of Appraisers.
- A professional designation by any other appraisal or assessing association approved by the department.

Candidates who plan to use either the department's Township Assessor —Introductory Course or the Certified Illinois Assessing Officer designation from the IPAI will need to complete the Pre-appointment/Pre-election Certification Application for a Certificate of Qualification. Candidates who are planning to use one of the other approved designations in Section 2-45 will need to request a letter of qualification from those organizations.
